

Manufacturers of Quality Magnetic Components

Designed For Switcher/Controller Chipsets From Linear Technology & Maxim			
POWER MAGNETICS	SMPS		Flyback, Buck, Boost, Coupled Inductor, Forward, or Push/Pull Applications
	Isolation		SMD or Through-Hole Packages
	Pulse		RoHS Compliant & Lead-Free
	Trigger		Available in Commercial & Industrial Temperatures
	Photo Flash		Class 130, 155, & 200 Available
	Inductors		UL 94V-0 Materials
PoE MAGNETICS	SMPS		Certified by Linear Technology/ADI
	Gate Drive		EMI Shielding Available
	Common Mode Choke		Power Range up to 100 Watts
	Data Transformer		Supports the Latest PoE Applications
			Smallest Packages Available
LAN & TELECOM	10/100Base-X		Optimized for Leading Transceiver ICs
	1000Base-T		Meets or Exceeds IEEE 802.3 Standards
			Includes Common-Mode Chokes
			Surface-Mount or Through-Hole Packages
DELAY LINES	Active		High-Precision Delay Times
	Passive		Single, Dual, Triple, 5, & 10 Tap Designs
			TTL, Fast TTL, & CMOS Compatible

Providing Custom Design & Engineering Capabilities Since 1950

PCA has a 60+ year history of commitment to manufacturing the highest quality electromagnetic components. Our experienced engineers are able to produce custom designs, built to your specifications. Our objective is to become your primary source of magnetics by exceeding your expectations and requirements with the best solutions and support.

Excellence, Integrity, Consistency, and Reliability are our commitments to you.

- ★ **Serving the Commercial, Medical, and Military Markets**
- ★ **Fast Delivery on Prototype Quantities**
- ★ **In-House Packaging Design Facilities**
- ★ **High Volume Production Capability**
- ★ **Full Range of Environmental Testing**
- ★ **Experienced Design and Production Engineers**
- ★ **ISO-9001-2008 Registered**
- ★ **RoHS Compliant**

Ethernet Filter

Pulse Width Modulator
(12 V Lamp Dimmer)

90 Watt PoE
